### Study skills

- 1 Stay organised.** Keep all of your French work together in a folder. Stick to a system – know where you keep vocabulary, grammar notes and exercises.
- 2 Check and redraft.** Always check over your work. Focus on checking particular elements in the text, e.g. spelling and accents, verb endings, etc.
- 3 Work with others.** Working with others can be more effective, since you can help each other when you are stuck, and it is more motivating. Get someone at home to help test you!
- 4 Review targets.** Don't just set targets and ignore them. Review them regularly. Read your teacher's marking and respond to it. It really will help you improve!

### Stratégie 1

#### Look, say, cover, write, check

Use the five steps below to learn how to spell any word.

- 1. LOOK** Look carefully at the word for at least 10 seconds.
- 2. SAY** Say the word to yourself or out loud to practise pronunciation.
- 3. COVER** Cover up the word when you feel you have learned it.
- 4. WRITE** Write the word from memory.
- 5. CHECK** Check your word against the original. Did you get it right? If not, what did you get wrong? Spend time learning that bit of the word. Go through the steps again until you get it right.
